

The Count Down Is On!

The Wyalong Solar Farm is ready to kick off.

The project includes the construction, operation, upgrading and future decommissioning of an 70MWAC photovoltaic electricity generating system and associated infrastructure including grid connection to the Essential Energy Network.

The project is located at 1409 Newell Highway, Wyalong, within the Bland Shire in the Riverina region of New South Wales

Join us at the upcoming community drop-in information session on the project. The session will be held:

Thursday March 5:30PM to 7:30pm at Service & Citizens Club in West Wyalong 100 Monash St, West Wyalong NSW 2671

Come down, meet the project team and have your opportunity and speak with our project experts to answer your questions about the solar farm design and the project.
